## EXPERIENCE

### Software Engineer

#### cVation – Part of Skylink

March 2024 – Ongoing

København, Denmark

- Currently working as an IT consultant, focusing on Azure Cloud solutions.

### Development Engineer

#### Logos Payment Solutions

November 2020 – July 2022

Nærum, Denmark

- Worked an average of 25 hours per week while pursuing an Industry master of science in engineering.
- I worked as a full-stack developer in a small team that developed a payment solution for parking and toll roads.

### Software Developer

#### IT Minds

August 2020 – November 2020

København, Denmark

- Worked an average of 25 hours per week while pursuing an Industry master of science in engineering.
- Worked as an IT consultant.

### Software Developer (Internship)

#### IT Minds

August 2019 – February 2020

København, Denmark

- Development and testing of in-house projects.
- Customer dialogue to ensure the best possible solutions for customers.

### Software Developer

#### DTU – Technical University of Denmark

July 2019 – October 2019

Lyngby, Denmark

- Worked 12 hours per week on an EU-funded project to reduce fertilizer usage in agriculture.
- Developed several prototypes and integrated them into existing systems. Additionally, I designed and developed a project website to publish updates and track progress.

### Software Developer

#### Self employed

2010 – Ongoing

Denmark

- Designed and developed websites for a diverse range of small businesses.
- Examples of clients: A restaurant, a nail salon, a local politician, and a company specializing in constructing small bridges.

## MOST PROUD OF

### Love & family

I have an amazing wife and together we have our baby girl Solvej.

### Sports career

I have been paddling on the national team in kayaking for 6 years, earning multiple Danish championships, Nordic championships, and 2 x EM Bronze.

### Personal Growth and education

I am proud of my personal growth and hard work I have done doing my education at DTU.

### Proud of my work

I am proud that the lines of code I wrote at Logos as well as IT Minds help people every day. - I would love to continue writing code to improve your users' lives.
